ODD NOTES.
Said Mr. Hallam, the historian, god-father of Hallam Tennyson, the Laureate's eldest son, on the occasion of the christening. "Why not give the child your own name as well as mine? Why not call him Alfred Hallam Tennyson? 'For fear,' said the deep-voiced bard, 'for fear he should turn out a fool! Let his name be Hallam only!'"
A young gentleman of this city was once a teacher of a Sabbath school class, in which was a bright colored boy. The lesson was about the beams, etc., in the eye. Teacher—"I read here about the mote (addressing the black boy.) Do you know what a mote is?" John (chuckling)—"Clar don't, 'les it's nigger."—Rochester Democrat.
Senator Randolph, of New Jersey, is an inventor. Among the ingenious exhibits of American labor-saving machinery at the Paris Exposition will be an excavating machine contrived by the Senator, and capable of digging a trench a mile long, three feet deep, and nearly a foot wide, in ten hours, or equal to the labor of one hundred men.
A very little boy had one day done wrong, and he was sent, after parental correction, to ask in secret the forgiveness of his Heavenly Father. His offense was so serious that he was anxious to hear what he would say, his mother followed to the door of his room. In lisping accents she heard him ask to be made better, and then, with childlike simplicity, he added: "Lord, make ma's temper better, too."
Here is the opening of a speech made by the Hon. Mr. Barran in the British House of Commons: "This remark, sir, was made—ah—I was about to say, last session that, sir, this was said which the union... inhabitants, that is to say, sir, the inhabitants who depend on wine, they live to be admitted to the 'higher form of government, I feel, sir, is what ought not to—depend on an amount of fallacy, which I, sir, claim the right from this, and also for the 'agricultural laborer.'"
Throw back your shoulders was what Aaron Burr wrote to his daughter Theodosia. "Your habit of stooping, and bringing your shoulders forward upon your breast not only disfigures you, but is alarming on account of its injury to your health. The continuance of this vile habit will certainly produce a consumption; then farewell papa, farewell pleasure, farewell life! This is no exaggeration, no fiction to excite your apprehension. But, setting aside this distressing consideration, I am astonished that you have no more pride in your appearance. You will certainly stunt your growth and disfigure your person."
At one of our leading hotels, after a club dinner, when the segars were on, a gentleman leaned back and asked one of the waiters to bring him a cuspadore. "A phawt, sur?" said the attendant with a vacant stare. "A cuspadore," replied the gentleman, hoarsely, with the annoyance a man always feels at table in attracting his neighbor's attention to his order. "Is it on the bill, sur?" said the waiter, peering over his interrogator's shoulder. "No, you fool," replied the now amused diner. "I thought not," said Patrick, drawing himself up with an air of professional superiority. "Cuspadore is out of sason, sur?"—Commercial Bulletin.

THE LITTLE DREAMER.

A little boy was dreaming,
 Upon his nurse's lap,
 That the pins fell out of all the stars,
 And the stars fell into his cap.

So, when his dream was over,
 What should the little boy do?
 Why, he went and looked inside his cap,
 And found it wasn't true.

THE LITTLE SAVAGE.

She is witty, brave, and charming, and yet the ugly old Commodore threatens to send the little savage to the Bastille if she does not sing the praises of the “Unequaled Corticelli.” The old rascal, by the way, is a heavy stockholder in the Corticelli Silk Company.

In a thousand miles of continuous thread there can not be found an uneven spot or a single knot in the peerless Florence Knitting Silk.

A LADY’S COMPLIMENTS.

The highest possible compliment from a lady was to the effect that “Florence” must be perfect, for mills that could produce such superb spool silk as “Corticelli” could not but make superb knitting silk.

Eschew all cheap and shoddy thread
Of fabric coarse and common ilk,
But be by sense and reason led,
And use the Corticelli Silk.

Nature produces the richest hues and most delicate tints, but every shade under the sun can be found in the “Unequaled Corticelli.”

AUTHORIZED STATEMENT.

It is an absolute fact that the oldest and by far the largest silk thread works in the world are the famous Corticelli Silk Mills. It is also true that the founders of these mills were the pioneers in the manufacture of silk thread; that they have ever maintained the reputation of producing the most reliable and creditable silk in the market— a reputation so strong that “Corticelli” has never had competition on equal terms, for no other brand will admit of comparison. “Corticelli” is the only spool silk up to the standard in strength. It is the only spool silk that will hold out in length. That the people appreciate this is attested by the fact that there is five times as much Corticelli silk sold in St. Louis as of all other brands combined.

WARNING.

Aside from the fact that “Florence” is the only genuine knitting silk, it is also the only silk made for knitting purposes that will hold its color in washing. Those ladies who have tried imitations well know this statement to be true.
